HERBELIN

ATELIER D'HORLOGERIE FRANÇAISE

— DEPUIS 1947 —

CATALOGUE
2018 - 2019

HISTORY

1947 saw the foundation of French Watchmaking company Michel Herbelin. Each watch carries a timeless design that reflects seven decades of a family passion. The brand has been passed down to 4 generations of the Herbelin family, who aspire to carry on with the successful legacy Michel Herbelin has become.

1947

Michel Herbelin is recognized as the French specialist in mechanical watches.

1980

1960

Michel Herbelin starts his own company. His technical knowledge combined with creative design was the start of a successful brand.

Michel's sons join him and give a new dimension to the company. Creative and luxury products are developed, using quartz technology. They reflect the French "Art de vivre".

The family passion for the nautical world, and especially yachting boats leads to the birth of the Newport line.

1988

2006

The Michel Herbelin engineers developed the Antarès Interchangeable model. Antares becomes the emblem of the feminine range

Michel Herbelin celebrates the Newport Collection 30th Anniversary .

NEWPORT CONNECT

Swiss Movement
316L - Stainless steel
Sapphire Crystal
Water resistant to 100 meters

THE NEWPORT CONNECT IS
A MULTI-FUNCTIONAL SMART WATCH.

The watch has 3 main information elements; call or message notification, activity and sleep tracking. The watch vibrates and turns to point to the desired subject area when needed to keep the wearer in touch with all the physical and social demands that modern life throws at you.

The Newport Connect functions with the MMT-365 application, available for iOS and Android. Once it is downloaded onto the smartphone, it is possible via Bluetooth to monitor activity and sleep for the day, the week or the month, thanks to simple, easy to understand graphics.

NEWPORT CONNECT

PHONE FUNCTION

The PHONE function indicates calls in progress or missed calls.

1. As you receive a call, hands move under PHONE, and the watch vibrates.

2. In case you miss a call, hands will stay under PHONE to indicate it.

To free the hands, press crown once.

ACTIVITY MODE

ACTIVITY mode records and indicates your daily physical activity.

It must be activated when you wake up.

In case you forget to activate it, the watch will do it automatically after 250 steps

SLEEP MODE

SLEEP mode records and indicates the quality of your sleep.

It must be activated when going to bed.

WARNING: the watch must be worn or put under the pillow in order to work.

NOTIFICATIONS

NOTIFICATIONS function shows the information received on your smartphone, as they were set up beforehand.

DUAL TIME FUNCTION

Once a second time zone is set up in the MMT app, press the crown 3 times to show it. Hands will go back to their former position after a few seconds
